

tripods traveler

range and specifications

Traveler Tripods are available in 4 sizes, as legs only, or as kits (tripod+head) featuring the new Center Ball Heads for ultimate smoothness and precision. The slimmest Series 0 is added to the Traveler family for the first time, while the Series 1 and 2 models have become taller than their predecessors.

series

0.

top leg ø: 21.7mm

The slimmest Series 0 is added to the Traveler family for the first time. With its slim leg tubes, it is the lightest Traveler tripod, but thanks to the stiff Carbon eXact tubes it is surprisingly rigid. A 4-section tripod with short closed length and short extended height.

series

1.

top leg ø: 25.3mm

Series 1 has the perfect balance between lightweight when carrying, and height and rigidity when shooting. The 5 section Traveler has a superb height / closed length ratio. The 4 section Traveler is much taller than its predecessor thanks to the space efficient Traveler G-lock.

series

2.

top leg ø: 29.0mm

Series 2 has the largest tube diameters among Traveler tripods. It is ideal for photographers using longer lenses or requiring the highest stability. The feet are interchangeable with Gitzo's optional feet, such as spikes and large feet. A 4-section tripod, much taller than its predecessor thanks to the space efficient Traveler G-lock.
